EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with the applicants' attorney Mr. Robert L. Marsh on 3/3/2005.

The application has been amended as follows:

IN THE CLAIMS:

Claim 12, line 14, "to" second occurrence has been deleted and --for-- has been inserted.

IN THE SPECIFICATION:

On page 8, between lines 18 and 19, --Fig. 6D is another isometric view of the housing of the valve shown in Fig. 4;-- has been inserted.

Allowable Subject Matter

2. Claims 1-13 are allowed.

3. The following is an examiner's statement of reasons for allowance: the prior art fails to disclose or render obvious a dispensing valve for dispensing a quantity of pressurized liquid in combination with the other claimed limitations of claim 1:

"means for locking said float for rotation with said stem, said float axially moveable within said cavity independent of said stem, means on said valve housing and on said float for selectively adjusting the travel of said piston to thereby selectively

adjust the volume of said cavity wherein said travel is adjusted by changing said angular orientation of said stem and said float about said axis".

Further, the prior art fails to disclose or render obvious a dispensing valve for dispensing a quantity of pressurized liquid in combination with the other claimed

limitations of claim 12:

"said valve housing having a refill port extending through said wall for admitting liquid to enter said cavity and said stem further comprises means for sealing said refill port when said stem is in said depressed position".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Martin et al. 6,695,175, Yazawa et al. 5,915,598 and Targell 5,310,092 disclose other types of dispensing valve.
